! Scam Alert :

Analytics Career Connect (ACC) does not charge any fees from colleges pursuing students (not graduates) for jobs or internships. All programs are free for college students. Only ACC's official programs are paid for graduated candidates. If anyone requests payment in the name of ACC, please report it immediately to the HR Department.

♦ About Analytics Career Connect (ACC)

Analytics Career Connect (ACC) is a **product-based startup** building **India's most affordable and practical tech-learning ecosystem**.

Our vision is to **make education affordable and accessible**, while helping **1 lakh job seekers secure their first job** through **skill-based training, real-world experience, and job assistance**.

ACC operates as a **multi-vertical company**, integrating three key divisions under one unified ecosystem:

1. **EdTech Platform** – Making tech education affordable, practical, and job-oriented.
2. **IT Services Division** – Delivering real-world projects and digital solutions to clients.
3. **Recruitment & Job Assistance Division** – Connecting job-ready candidates with verified opportunities through personalized support and partnerships.

♦ About the Placement Program

Analytics Career Connect's **Placement Program Internship** is designed for candidates who have completed **data-related courses** but are still **not job-ready**.

This program focuses on **real-world skills, hands-on projects, mentorship, and placement support** to help candidates transition from learning to employment.

By the end of the program, candidates are prepared for **multiple data analytics roles** across industries.

ACC's mission is to make **industry-ready education affordable and accessible**, especially for learners from Tier 2, 3, and 4 cities. The focus is on **real skills, real projects, and real jobs**.

Frequently Asked Questions (FAQ)

Placement Program Internship – Data Analytics (ACC)

1. What is the Placement Program Internship?

The Placement Program Internship is designed for students and freshers who have completed their course but are still not job-ready. It provides practical training, real work experience, mentorship, and interview preparation in an internship-style environment to help candidates develop industry-ready skills and improve their job placement opportunities.

Why did we start this Placement Program Internship?

We started this program because many students complete their courses and certifications but still struggle to get a job. The main reason is that most courses focus on learning concepts but provide limited real-world work experience and cannot guarantee placement.

This does not mean the courses are bad; they provide valuable knowledge. However, employers often look for practical skills, work exposure, and job readiness.

To bridge this gap, we launched the Placement Program Internship. It allows candidates to work with us in an internship-style environment, gain hands-on experience, develop industry-ready skills, and improve their chances of getting placed.

2. Who is this program for?

This program is for:

- Candidates from **2026 batch and below**
- Freshers or job seekers
- Candidates with **basic to intermediate knowledge** in Data Analytics
- Learners who completed courses but are **not able to get a job**
- Candidates who need **structured mentorship and placement support**

3. Is this a job guarantee program?

No. We do not believe in making unrealistic job guarantee claims. No organization can genuinely guarantee a job because the final hiring decision always depends on the employer, candidate performance, interview results, and market conditions.

Instead of offering false guarantees, we provide a strong commitment to support you throughout your job search journey. **Our goal is to help you become job-ready and continue assisting you until you secure a suitable opportunity.**

What we provide:

- ✓ 100% Placement Support
- ✓ Continuous Job Assistance
- ✓ Interview Preparation & Mock Interviews | Resume Building Support
- ✓ Job Referrals & Opportunity Sharing | Mentorship and Career Guidance

Our commitment is simple: we will continue to guide and support you in your placement journey until you get hired.

4. How long is the program?

The program duration is **up to 3 months** or **until you get a job**, whichever comes first.

5. Is this a paid internship or unpaid?

This is a **paid placement program**, but with a **pay-after-placement model**.

- Registration Fee: **₹3,000**
- Remaining Fee: **₹2,000 (paid only after getting a job)**
- **Total Fee: ₹5,000**

There is **no heavy upfront payment**.

6. What kind of placement support will I get?

You will receive:

- Resume optimization
- LinkedIn profile optimization
- Mock interviews (technical + HR)
- Interview preparation sessions
- Job referrals and interview opportunities
- Continuous guidance **until you get hired**

7. What skills will I learn in this program?

You will focus on **core Data Analyst skills**, including:

- Microsoft Excel
- SQL (MySQL)
- Python
- Power BI
- Tableau

You will also learn:

- Data cleaning & EDA
- Dashboard building & reporting
- Basics of Machine Learning
- Generative AI tools for analytics

8. Will I work on real projects?

Yes.

You will work on:

- **In-house projects**
- **Live project simulations**
- **Real-world datasets** from multiple industries

These projects help you build a **job-ready portfolio**.

9. What job roles will I be eligible for after this program?

You will be prepared for **multiple data roles**, such as:

- Data Analyst
- Business Intelligence Analyst
- MIS Analyst
- Power BI / Tableau Developer
- Reporting Analyst
- Marketing / Product Analyst
- SQL Developer
- (and more)*

10. Is mentorship included in this program?

Yes.

This program includes:

- **1:1 mentorship**
- Regular feedback sessions
- Personalized guidance based on your gaps and goals

11. Is this program remote or office-based?

This is a **remote program**, available in:

- Full-Time mode
- Part-Time mode

12. Can I join if I am a beginner?

This program is **not recommended for absolute beginners**.

You should have:

- Basic understanding of Data Analytics
- Some exposure to Excel / SQL / Python / BI tools

If you are a beginner, ACC recommends starting with **skill-building or General Internship** first.

13. Will I get a certificate after completion?

Yes.

Upon successful completion, you will receive:

-  **Internship Completion Certificate**
-  **Experience Letter**

14. Is there any bond or contract?

No.

There is **no bond** or long-term contract.

15. How do I apply for the Placement Program Internship?

Follow these steps:

- 1] Apply online
- 2] Skill screening
- 3] Admission interview
- 4] Enrollment & onboarding

 **Registration Link:**

<https://forms.gle/4NiNQ6PGjUDxWcGM7>

16. How is this different from the General Internship?

General Internship

- Free
- Experience-focused
- No mentorship
- No job support

Placement Program Internship

- Paid (pay after placement)
- Job-focused
- 1:1 mentorship
- Full placement support
