About Analytics Career Connect (ACC)

Analytics Career Connect (ACC) is a product-based EdTech and IT services startup headquartered in Pune, Maharashtra. Founded by Mr. Wasim Patwari and Sadaf Khan (Patwari) building India's most affordable and practical tech-learning ecosystem.

Our vision is to make education affordable and accessible, while helping 1 lakh job seekers secure their first job through skill-based training, real-world experience, and job assistance.

ACC operates as a multi-vertical company, integrating three key divisions under one unified ecosystem:

1. **EdTech Platform** – Making tech education affordable, practical, and job-oriented.
2. **IT Services Division** – Delivering real-world projects and digital solutions to clients.
3. **Recruitment & Job Assistance Division** – Connecting job-ready candidates with verified opportunities through personalized support and partnerships.

Internship Objective

This internship is a **learning-based and placement-support-focused program**, specially designed for **2027 / 2028 / 2029 batch students** under the **Campus to Corporate Project** by ACC.

The goal is to help students gain **real-time industry experience while still in college** by working on **live startup projects so they don't need to waste money of course**.

At ACC, you are not just joining an internship, you are entering a **real startup ecosystem** where your learning, work, and performance directly contribute to real business outcomes.

This program enables you to:

- ✓ Gain **hands-on industry experience** | ✓ Start your **paid internship journey**
- ✓ Explore **freelancing opportunities** | ✓ Become **job-ready before graduation**

Top-performing candidates will also be eligible for a **KPI-based stipend**, creating an opportunity to **learn + earn** during the internship.

Why This Internship Matters

ACC understands a major problem in today's education system:

- ! Most students graduate without **practical experience**
- ! Many spend **₹50,000 – ₹2,00,000+ on courses** but still struggle to get jobs

To solve this, ACC created this program to help students:

- ✓ Gain **real industry exposure during college**
- ✓ Avoid wasting money on **expensive, theory-based courses**
- ✓ Build a strong **portfolio with real project work**
- ✓ Start **earning through internships & freelancing**
- ✓ Become capable of securing **high-paying roles after graduation**

End Goal for Students

By the final year, students will have:

- ✓ Real **corporate/startup experience**
- ✓ A strong **project portfolio**

ACC – Human Resources Department

Building People. Strengthening Culture. Driving Growth.

Divisions: EdTech | Analytics & IT Services | Recruitment Solutions

LinkedIn | **Website:** www.analyticscareerconnect.com | **Email:** hr@analyticscareerconnect.com

Beyond Hiring. Building Careers & Culture.

Note : ACC never charges any fees for jobs or internships.

If anyone asks for money in the name of ACC, report it immediately to our HR Department.

- ✓ Exposure to real business problems
- ✓ **Placement support from ACC** to help secure job opportunities

Mindset Requirement — Very Important

This internship is for **serious and growth-focused candidates**.

✓ If your goal is to build a **strong career, gain real skills, and achieve high-paying opportunities** — this is the right fit.

✗ If you are only looking for a **basic internship or comfort-zone learning**, this program may not be suitable.

ACC aims to build the **next generation of data analysts** confident, skilled, practical, and industry-ready. We focus on **real growth, real experience, and real outcomes**, not shortcuts.

Our Mission

Our mission is to:

- Make tech education affordable, accessible, and career-focused for every learner
- Empower 1,00,000 job seekers to secure their first job
- Save your parents from unnecessary financial burden
- Reduce dependency on overpriced, theoretical courses
- Provide a practical, affordable, and impact-driven learning pathway
- Help students build real-world expertise through startup-driven experience

This internship helps candidates:

- Build a strong foundational data skillset
- Work on industry-level, product-based projects
- Stand out during placement seasons
- Become capable of securing **high-paying analytics roles**

About the Internship

At **Analytics Career Connect (ACC)**, a **Data & Business Analyst Intern** goes beyond traditional analytics; you won't just work on spreadsheets and dashboards, but truly understand how **data powers every decision in a startup environment**.

This role offers a **unique 60-40 experience**:

- **60% Technical Analytics Work** – Dive into real-world data cleaning, visualization, and analysis for live projects.
- **40% Startup Exposure** – Contribute to ACC's broader mission by supporting cross-functional initiatives across operations, marketing, HR, and product improvement, along with actively working in our EdTech and Recruitment verticals just like a true startup intern, gaining hands-on exposure to multiple business functions.

You'll not only sharpen your analytical skills but also **develop an entrepreneurial mindset**, learning how startups grow, make decisions, and solve real business challenges.

If you want to **think like a founder and work like an analyst**, this internship is your launchpad.

Internship Structure & Phases

Phase 1 – On Job Training [OJT] (0–90 Days)

- ◆ **First 30 Days – Basic Training (70% Learning + 30% Work)**
 - Introduction to company processes, tools, and data workflows.
 - Basic learning of technologies: Python, SQL, Excel, Power BI/Tableau, and web scraping fundamentals.
 - Understanding company vision, mission, and how each role contributes to business goals.
 - Focus on building strong foundational knowledge (not heavily focused on real-time project work).
 - Small practice assignments and limited hands-on tasks to build confidence.

ACC – Human Resources Department

Beyond Hiring. Building Careers & Culture.

Note : ACC never charges any fees for jobs or internships.

If anyone asks for money in the name of ACC, report it immediately to our HR Department.

◆ **Day 31–90 – Advanced OJT (On-the-Job Training) (50% Learning + 50% Work)**

- Transition into advanced learning with practical implementation.
- Work on real-time projects and stipend-related activities.
- Hands-on experience in data analytics tasks including cleaning, analysis, and reporting.
- Exposure to a startup working environment with multitasking responsibilities.
- Active contribution across multiple verticals including **EdTech and Recruitment**.
- Develop a strong ability to manage multiple tasks and work like a core startup team member.

⚠ **Training Phase Policy**

- The first 45/60/90 days are OJT only.
- No leaves are allowed during the first 5 days (Orientation period).

Probation Duration: 1 Month

- Evaluated based on performance, discipline, communication & task completion
- No leave is permitted during the probation period
- Only candidates who successfully pass probation continue for the full internship duration

Phase 2 – Project Work (Remaining Months)

Stipend Structure (Based on Internship Duration):

- **4-Month / 6-Month Internships:**
 - First 45/ 60 days – **Unpaid Training Period**
 - After Training – **Stipend Range ₹1,000 to ₹10,000 (Performance & KPI Based)**

This stipend is ONLY for top performers, based on:

- KPI-based performance | Quality of work | Task completion rate
- Professionalism & consistency | Revenue-generating work or mission-related contributions

Only candidates who **close work-related outcomes**, achieve KPIs, or support ACC's **revenue activities** will be eligible.

⚠ Stipend Eligibility Clause

To receive the stipend, interns **must connect with the ACC Management Team** for performance review, KPI evaluation, and approval.

Key Responsibilities – Data & Business Analyst Intern

♦ Core Data Analytics (60%)

- Analyze business and client data to identify key trends, performance gaps, and growth opportunities.
- Prepare, clean, and validate datasets using **Python, SQL, and Excel**.
- Design and develop **interactive dashboards and visual reports** using **Power BI or Tableau**.
- Conduct **research-based case studies** to support business, marketing, and product strategies.
- Automate repetitive data workflows and build **SQL-based reporting pipelines** for internal use.
- Apply **statistical and predictive modeling** to generate actionable insights.
- Translate complex findings into **clear data stories and presentations** for leadership and stakeholders.

♦ Startup Growth & Cross-Functional Exposure (40%)

- Collaborate with multiple verticals — **EdTech, IT Services, Recruitment, HR, Marketing, and Strategy** to understand how data supports and drives each business function.
- **EdTech Vertical Contribution** – Actively contribute towards our education vision by supporting content awareness, student engagement initiatives, and learning experience improvements. Work on awareness campaigns, research on education trends, and help in building impactful learning solutions.
- **Recruitment Vertical Contribution** – Work closely on **BPO hiring and internal hiring requirements**, including candidate sourcing, screening, coordination, and maintaining recruitment data. Gain hands-on exposure to real hiring processes and talent acquisition strategies.
- Participate in startup operations and support implementation of **data-driven process improvements** across functions.
- Work directly with founders and leadership to align execution with company vision and mission.
- Contribute to strategic discussions, internal reporting, and business research for ongoing projects.
- Gain real startup exposure by understanding **how decisions are made, problems are solved, and businesses scale using data and execution**.

Why Join This Internship

At ACC, you won't just work as a Data Analyst — you'll **grow as a startup professional**.

You'll learn to combine technical skills with business understanding, helping to build a company that's changing how India learns and works.

“Work with purpose. Learn with impact. Grow with data.”

Frequently Asked Questions (FAQ)

1) Is this internship paid?

Yes, This is primarily a learning-focused internship.

- The first 30-70-90 days (training phase) are completely unpaid.
- After the training phase, a performance-based stipend (₹1,000–₹10,000) is applicable only for top performers.
- **Stipend is not guaranteed and depends strictly on KPI achievement, consistency, and contribution.**

2) Is this internship suitable for 2027/2028/2029 batch students?

Yes

It helps students become job-ready by doing the work.

Beyond Hiring. Building Careers & Culture.

Note : ACC never charges any fees for jobs or internships.

If anyone asks for money in the name of ACC, report it immediately to our HR Department.

3] Is placement support included?

Yes.

6-month interns who successfully complete the internship and meet performance expectations will receive:

- Structured job assistance
- Resume & interview guidance
- Referral support through ACC's recruitment network

Placement support depends on active participation and performance.

4] What if I cannot clear the probation period?

The first 30 days are probation.

During this time, candidates are evaluated on:

- Discipline
- Task completion
- Communication
- Learning consistency

If performance is not satisfactory, continuation will not be allowed.

5] Are leaves allowed?

- No leave is allowed during the first 30 days (probation period).
- After probation, leaves may be considered based on prior approval and workload.

This policy ensures seriousness and commitment.

Beyond Hiring. Building Careers & Culture.

Note : ACC never charges any fees for jobs or internships.

If anyone asks for money in the name of ACC, report it immediately to our HR Department.

6) Is this internship remote?

Yes.

It is fully **Remote (Work From Home)**.

Work Type Options:

- Full-Time
- Part-Time (Flexible)

Working Hours:

- **Full-Time:** 9:30 AM – 6:00 PM
- **Part-Time:** 4–5 Hours Daily
- Friday Off
- Flexible working window between **9:00 AM – 11:00 PM** (for Part-Time)

7) What tools will I learn?

You will gain practical exposure in:

- SQL
- Python (Pandas, NumPy, Visualization)
- Excel (Advanced Level)
- Power BI / Tableau
- Web Scraping
- Basic Machine Learning
- Business Analytics & Data Storytelling

8) Will I get a certificate?

Yes.

- Internship Completion Certificate (on successful completion)
- Letter of Recommendation (for top performers only)
- **Tools-Based Certificates** (based on the tools/skills you work on during the internship, such as Excel, Power BI, HR tools, etc.)

ACC – Human Resources Department

9) Is there any registration fee?

No.

ACC does **not charge any registration fee** for internships or job opportunities for **college students**. Most ACC drives are **completely free for College students**.

⚠ Note: For **pass-out candidates**, certain programs (like placement or advanced training) may have applicable fees as per company policy.

If anyone asks for money, immediately report it to the HR department.

10) What makes this internship different from other internships?

Unlike typical internships where interns only do small or repetitive tasks:

- You work on **real startup-level projects**
- You build **30+ portfolio-ready projects**
- You gain **cross-functional exposure** (HR, Marketing, Data, Strategy, etc.)
- You understand how **data drives real business decisions**
- You prepare early for **high-paying career roles**
- You actively **contribute to the company's growth** through your work and ideas
- You work in a **multi-tasking, fast-paced environment** — not just completing assigned tasks, but taking ownership and handling multiple responsibilities

This is not a “certificate internship.”

It is a **structured startup learning ecosystem** where your work creates real impact.

11) Who should NOT apply?

- Candidates looking only for a certificate
- Students not serious about daily commitment
- Those who prefer comfort-zone learning
- Candidates not willing to work under performance metrics

This internship is for ambitious students aiming for strong analytics careers.
