

Data & Business Analyst Internship Opportunities (2026 & Earlier Batches)

Hey Candidates,

If you belong to the **2026 batch or earlier**, we currently offer **3 different opportunities Option** based on your **practical knowledge level, learning requirements, job support needs, and career goals**. Choose the option that best matches your current skills and expectations.

♦ **Option 1: General Data & Business Analyst Internship**

This internship is for candidates who already have **80%+ practical Data & Business Analytics knowledge** and are looking to gain real-world industry experience through live projects and startup execution. This internship is offered in **two categories**, allowing candidates to choose the path that best matches their career goals and level of startup involvement:

● **Category 1: Free Startup General Data Analyst Internship**

(For Candidates with 80%+ Practical Knowledge & Startup Mindset)

👉 This category is for candidates who are passionate about working in a startup environment and are willing to contribute beyond Data Analytics.

You'll work on:

- Data Analytics & Business Analytics & Research & Automation & Dashboard Development
- Real-Time Projects , Startup Operations
- HR & Recruitment Activities & Marketing & Branding
- Business Development
- EdTech Operations & Content Creation
- Process Improvement
- Cross-Functional Collaboration
- Consulting & Problem Solving
- Leadership & Ownership

🎁 **Benefits (100% Free)**

- ☒ Real-Time Industry Project Experience
- ☒ Startup Work Experience
- ☒ Performance-Based Stipend Opportunities
- ☒ Internship Certificate
- ☒ Experience Letter

ACC – Human Resources Department

Building People. Strengthening Culture. Driving Growth.

Divisions: EdTech | Analytics & IT Services | Recruitment Solutions

LinkedIn | **Website:** www.analyticscareerconnect.com | **Email:** hr@analyticscareerconnect.com

Note : ACC does not charge any fees from currently college students for internships, job or placement support under free programs. **Most programs and internships for graduates/pass-out candidates are paid, depending on the selection and eligibility.**

If anyone asks for money in the name of ACC, report it immediately to our HR Department.

- ☒ Placement Support until you are hired
- ☒ Professional Portfolio Building
- ☒ Leadership & Startup Exposure
- ☒ Mentorship & Career Guidance

Internship Type: Remote (Full-Time)

Duration: 3.5 / 4 / 6 Months (Extension based on performance)

Eligible Batches: 2010–2026

Working Days: Monday–Friday (5 Days/Week)

Working Hours: 7Hours/Day

🟡 Category 2: Data Analytics Focused Internship (Paid)

(For Candidates who want to work primarily on Data Analytics and prefer minimal involvement in startup activities such as HR, Marketing, Recruitment, Sales, Business Development, or Content Creation.)

This option is designed for candidates who want to focus mainly on technical learning and Data Analytics rather than contributing across multiple startup functions.

Internship Fee

- **Tier 1 Cities Candidate :** ₹3,000
- **Tier 2 & Tier 3 Cities Candidate :** ₹2,000

The internship fee helps cover the cost of onboarding, mentoring, training, project supervision, and company resources, as the candidate contributes less to overall startup operations while receiving structured learning and project experience.

🎁 Benefits

- ☒ OJT (On-the-Job Training)
- ☒ Real-Time Data Analytics Projects
- ☒ Client & In-House Project Experience
- ☒ Internship Certificate
- ☒ Experience Letter
- ☒ Placement Support
- ☒ Mentorship & Career Guidance
- ☒ Portfolio & Resume Building
- ☒ Professional Data Analytics Experience

ACC – Human Resources Department

Building People. Strengthening Culture. Driving Growth.

Divisions: EdTech | Analytics & IT Services | Recruitment Solutions

LinkedIn | Website: www.analyticscareerconnect.com | **Email:** hr@analyticscareerconnect.com

Note : ACC does not charge any fees from currently college students for internships, job or placement support under free programs. Most programs and internships for graduates/pass-out candidates are paid, depending on the selection and eligibility.

If anyone asks for money in the name of ACC, report it immediately to our HR Department.

Internship Type: Remote (Full-Time)

Duration: 2/3/4 /6 Months (Extension based on performance)

Eligible Batches: 2010–2026

Working Days: Monday–Friday (5 Days/Week)

Working Hours: 7 Hours/Day

Important Note

The internship fee for **Category 2** is applicable because candidates choose to participate only in the Data Analytics track with limited involvement in startup operations. The company continues to invest significant time and resources into training, mentoring, live project exposure, and placement support.

For complete eligibility, roles, responsibilities, and detailed program information, please refer to the **General Data Analyst Internship JD** : [2010 -2026 General Data Analyst Internship](#)

♦ **Option 2: Internship With Placement Support (Paid Program)**

(For Candidates with 60% – 80% Practical Knowledge)

👉 Designed for candidates who have completed a course, certification, mentorship program, internship, or self-learning journey and possess more than 50% practical knowledge but are still not job-ready.

👉 This program is ideal for candidates **who do not want to waste another 4–6 months in unpaid internships** and are **primarily focused on securing a full-time job as quickly as possible**. Instead of spending months working on company projects, candidates receive focused mentorship, job-readiness training, interview preparation, and placement support to increase their chances of getting hired within 2–3 months, depending on their skills, performance, and market opportunities.

Internship Type: Internship Learning and work Experiences + Placement Support

Mode: Full-Time / Part-Time

Duration: 3/4 /6 Months

Eligible Batch: 2026 & Below

⚠️ **Important Note:** This is **not a work-for-company internship**. You will not be assigned client projects, internal company work, or startup operations. The primary objective of this program is to help candidates become job-ready and secure full-time employment through structured mentorship, practical skill enhancement, interview preparation, and placement support.

Note : ACC does not charge any fees from currently college students for internships, job or placement support under free programs. **Most programs and internships for graduates/pass-out candidates are paid, depending on the selection and eligibility.**

If anyone asks for money in the name of ACC, report it immediately to our HR Department.

The Problem We Are Solving

Many students complete their college education and professional courses but still struggle to secure a job. The main reason is that they are not truly job-ready. **Most colleges focus on academics**, while many **training institutes focus only on selling courses** rather than providing practical experience, mentorship, and continuous placement support until a candidate gets hired.

As a result, students often lack real-world project experience, industry exposure, interview confidence, and proper career guidance.

Analytics Career Connect (ACC) aims to bridge this gap by providing practical internship experience, mentorship, corporate work culture exposure, job-readiness training, and placement support to help candidates become industry-ready and secure employment.

 For more details, connect with our team or review the program brochure and JD.

◆ **Option 3: Data Analyst Course + Internship Support**

(For Candidates with Less Than 50% Practical Knowledge)

 If your practical knowledge is currently below 50%, we do not have a free internship available for beginners at this stage.

However, we do offer a **Data Analyst Training Program with Internship Support** designed for candidates who need proper guidance, skill development, mentorship, and practical project experience before entering the industry.

Program Includes:

- Practical Data Analyst Training
- Real-Time Project Exposure
- Internship Support
- Mentorship & Career Guidance
- Placement Preparation Support

 For counselling and complete program details, connect with us at: **9607157409**

 Please read all JDs carefully and choose the option based on your current practical knowledge and career goals.

Frequently Asked Questions (FAQs)

♦ Option 1: General Data Analyst Internship – Frequently Asked Questions (FAQs)

Q1. Is the General Data Analyst Internship free?

It depends on the category you choose.

● Category 1 – Free Startup General Internship

- Completely Free (No Joining Fee).
- Available only for candidates with **80%+ practical knowledge** who are willing to work in a startup environment and contribute across multiple business functions such as Data Analytics, HR, Marketing, Recruitment, Business Operations, Content Creation, and more.
- Performance-based stipend opportunities may be available based on your contribution.

● Category 2 – Data Analytics Focused Internship

- This category has a **nominal internship fee** because candidates choose to work primarily on Data Analytics with limited involvement in startup operations.
- **Tier 1 Cities:** ₹3,000
- **Tier 2 & Tier 3 Cities:** ₹2,000

Q2. Who is eligible for the General Internship?

Candidates should already possess **80%+ practical knowledge** in Data Analytics and be capable of contributing to real company projects.

Preferred skills include:

- Python
- Excel
- SQL
- Power BI
- Web Scraping
- Data Cleaning & Analysis
- Dashboard Development
- Minimum 10+ practical projects

ACC – Human Resources Department

Building People. Strengthening Culture. Driving Growth.

Divisions: EdTech | Analytics & IT Services | Recruitment Solutions

LinkedIn | **Website:** www.analyticscareerconnect.com | **Email:** hr@analyticscareerconnect.com

Note : ACC does not charge any fees from currently college students for internships, job or placement support under free programs. **Most programs and internships for graduates/pass-out candidates are paid, depending on the selection and eligibility.**

If anyone asks for money in the name of ACC, report it immediately to our HR Department.

This internship is intended for candidates who are already job-ready and can work with minimal supervision.

Q3. What is the difference between Category 1 and Category 2?

● Category 1 – Free Startup Internship

- Work on Data Analytics + Startup Operations.
- Contribute to HR, Marketing, Recruitment, Business Operations, Content Creation, Research, Consulting, and other cross-functional activities.
- No internship fee.

● Category 2 – Data Analytics Focused Internship

- Focus mainly on Data Analytics projects.
- Minimal involvement in HR, Marketing, Sales, or startup operational activities.
- Internship fee applicable.

Q4. Will I receive training during the internship?

This is primarily a **work-focused internship**, not a classroom training program.

- Candidates are expected to already have strong practical knowledge.
- Basic onboarding, project guidance, mentorship, code reviews, and technical support will be provided whenever required.
- Both Category candidates also receive structured OJT (On-the-Job Training) alongside project execution.

Q5. Will I receive an Internship Certificate and Experience Letter?

Yes.

Candidates who successfully complete the internship, maintain good performance, and meet company expectations will receive:

- Internship Certificate
- Experience Letter
- Project Experience
- Professional Portfolio Support

ACC – Human Resources Department

Building People. Strengthening Culture. Driving Growth.

Divisions: EdTech | Analytics & IT Services | Recruitment Solutions

LinkedIn | **Website:** www.analyticscareerconnect.com | **Email:** hr@analyticscareerconnect.com

Note : ACC does not charge any fees from currently college students for internships, job or placement support under free programs. Most programs and internships for graduates/pass-out candidates are paid, depending on the selection and eligibility.

If anyone asks for money in the name of ACC, report it immediately to our HR Department.

Q6. Will I receive a stipend?

The internship is **not a fixed-stipend program**.

However, candidates who make exceptional contributions and create measurable value for the company may become eligible for **performance-based stipend opportunities**.

Q7. Will I get placement support?

Yes.

Both categories receive **placement support**, including career guidance, resume support, interview preparation, and job opportunities based on eligibility and performance.

Q8. What kind of candidates are selected?

We look for candidates who:

- Have 80%+ practical Data Analytics knowledge.
- Can work on real business projects.
- Take ownership and responsibility.
- Have a startup mindset.
- Learn quickly and solve problems independently.
- Communicate effectively and collaborate with teams.
- Are committed to continuous learning and professional growth.

Q9. Why is there an internship fee for Category 2?

Category 2 candidates choose to focus primarily on Data Analytics and contribute less to startup operations. The internship fee helps cover the company's investment in:

- On-the-Job Training (OJT)
- Mentorship
- Real-Time Projects
- Client Project Exposure
- Project Reviews
- Placement Support
- Certificate & Experience Letter
- Learning Resources and Company Infrastructure

ACC – Human Resources Department

Building People. Strengthening Culture. Driving Growth.

Divisions: EdTech | Analytics & IT Services | Recruitment Solutions

LinkedIn | **Website:** www.analyticscareerconnect.com | **Email:** hr@analyticscareerconnect.com

Note : ACC does not charge any fees from currently college students for internships, job or placement support under free programs. **Most programs and internships for graduates/pass-out candidates are paid, depending on the selection and eligibility.**

If anyone asks for money in the name of ACC, report it immediately to our HR Department.

◆ Option 2: Internship With Placement Support (Paid Program)

Q1. Is this program free or paid?

This is a **paid program** with a flexible payment structure.

Program Fee: ₹5,000

- ₹3,000 at the time of joining
- ₹2,000 after securing a job

Q2. Is your goal just to sell courses?

Absolutely not. We strongly believe India's biggest problem is unemployment and lack of job readiness. Many institutions focus on selling courses, while we focus on helping candidates become job-ready through mentorship, practical exposure, and placement support.

Q3. Is this program real or fake?

ACC is an IT Services, EdTech, and Placement Support company is working to solve two major challenges:

1. Affordable technology education.
2. Reducing unemployment through job-readiness and placement support.

Our founder, Wasim Patwari, has a mission to help 100,000 job seekers secure employment and make tech education more accessible and affordable.

If you use common sense and review the problem we are solving, you'll find your answer—fake companies don't dedicate themselves to solving real unemployment and affordable education challenges.

Q4. Do you guarantee a job?

No.

Please understand that "100% Job Guarantee" is often used as a marketing term in the industry.

What we guarantee is:

- Mentorship
- Practical Guidance

ACC – Human Resources Department

Building People. Strengthening Culture. Driving Growth.

Divisions: EdTech | Analytics & IT Services | Recruitment Solutions

LinkedIn | **Website:** www.analyticscareerconnect.com | **Email:** hr@analyticscareerconnect.com

Note : ACC does not charge any fees from currently college students for internships, job or placement support under free programs. **Most programs and internships for graduates/pass-out candidates are paid, depending on the selection and eligibility.**

If anyone asks for money in the name of ACC, report it immediately to our HR Department.

- Interview Preparation
- Resume Support
- Placement Assistance
- Continuous Support

We will continue supporting candidates throughout their placement journey, but hiring decisions are always made by employers.

Q5. I am confused between the General Internship and the Placement Support Program. Which one should I choose?

Choose the General Internship if:

- You already have strong practical skills.
- You want real project experience.
- You want startup exposure.
- You are not looking for placement support.

Choose the Placement Support Program if:

- You want structured mentorship.
- You need interview preparation.
- You need placement assistance.
- Your goal is to secure a full-time job within the next 2–4 months.

◆ Option 3: Data Analyst Training Program + Internship Support

Q1. Is this program real or fake?

Please refer to the answer above. We encourage candidates to review our company profile, JD, brochure, and attend counselling before making any decision.

Q2. Is placement support genuine?

Yes. Placement support is a key part of our program. However, support does not mean guaranteed placement. We help candidates become job-ready and assist them throughout the job search process.

ACC – Human Resources Department
